

INSPECTION READINESS

Bringing validation insights to
the table - literally

About the event

We welcome you to our latest CSVlab Learn And Bite (LAB) series!

Join us for an exclusive evening combining in-depth training with fine dining.

Learn and Bite is your opportunity to stay ahead in the field, engage with industry experts, enjoy a meal in great company, and network with colleagues and experts.

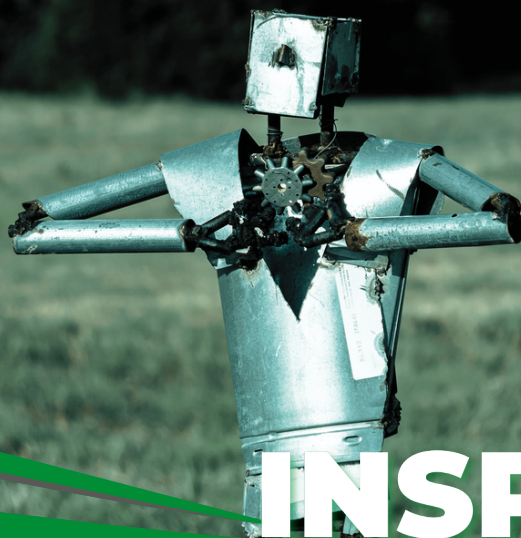

Why join?

An Audit is announced – what do you do?

Are you working in a highly regulated industry, responsible for GxP systems/ processes, and there is an inspection coming up ? Then this will be of great value for you!

Expect a focused training and workshop session on "Inspection Readiness/ Audit Preparation", and interactive Q&A rounds.

We are serving expertise and experience, along with tasty finger food served in a relaxed networking atmosphere.
